PROFESSIONAL SUMMARY

Front-End Developer with around 1.5 years of focused self-learning and practical project work. Experienced in building responsive web interfaces with clean, reusable components using React, Next.js, TypeScript and modern CSS tools. Completed a 190-hour full-stack web development program and several online courses. Comfortable working with APIs, modern front-end workflows and writing readable, maintainable code.
English level: B1 – intermediate.

TECHNICAL SKILLS

Languages
- HTML5, CSS3, JavaScript (ES6+), TypeScript

Front-End Frameworks & Libraries
- React.js, Next.js

Styling & UI
- Tailwind CSS, Bootstrap, SASS/SCSS, Responsive Design

Tools & Workflow
- Git, GitHub, VS Code, Figma

Other
- RESTful APIs, JSON, React Hooks, Component-based architecture

PROJECTS

E-Commerce Landing Page | HTML5, CSS3, JavaScript
- Built a custom multi-section e-commerce landing and store page using pure HTML, CSS and JavaScript.
- Implemented a fully responsive layout and reusable UI blocks to simulate a real product page.

Prayer Times Web App ("Mawaqeet") | React.js, JavaScript, REST API, HTML5, CSS3
- Developed a React-based web app that displays daily prayer times for all Egyptian governorates.
- Integrated a prayer-times API and implemented a live countdown to the next prayer.

- Designed a clean, responsive UI to make switching between cities easy on both desktop and mobile.

Admin Dashboard (Multi-Page) | React.js, React Router, CSS3
- Built a multi-page admin dashboard with more than 10 screens using React and React Router (SPA).
- Organized the interface into reusable components and layouts for clean and maintainable code.

Personal Portfolio Website | Next.js, React.js, Tailwind CSS, Framer Motion
- Created a personal portfolio to showcase projects, skills and contact information.
- Implemented a modern, responsive design with Tailwind CSS and smooth animations using Framer Motion.
- Deployed the site on Vercel: hakim-portfolio-iota.vercel.app

TRAINING & COURSES

Full-Stack Web Development Program (190 hours) | CLS Learning Solution – Online
Feb 2025 – May 2025
- Studied front-end: HTML5, CSS3, Bootstrap, Media Queries, SASS, JavaScript, TypeScript, Vue.js.
- Studied back-end basics: PHP (Core and Advanced), Laravel, SQL/MySQL and RESTful API concepts.
- Practiced building full-stack application structure from UI to database and API layer.
- Completed the program with an official certificate (PDF available upon request).

EXPERIENCE

Self-Taught Front-End Developer | Remote
2023 – Present
- Learned modern front-end development through YouTube, Coursera and paid online courses.
- Built multiple personal projects including dashboards, landing pages, e-commerce pages and utility apps.
- Used Git and GitHub for version control and practiced clean code, component reuse and responsive design.
- Switched career focus to Front-End Development during university through self-learning and intensive online training.

EDUCATION

Bachelor of Law (LL.B.) | Assiut University
Assiut, Egypt | 2021 – 2025
- Faculty of Law (Grade: Good)
