PROFESSIONAL SUMMARY

Front-End Developer with strong experience building modern, high-performance web applications using React, Next.js, TypeScript, TailwindCSS, and REST APIs. Delivered a full production-ready restaurant ordering platform for a real client in Saudi Arabia, demonstrating capability in front-end architecture, state management, API integration, and scalable UI/UX design.

Skilled in translating business requirements into clean, maintainable code. Passionate about solving real-world problems, optimizing user experience, and continuously improving technical depth.

English Level: B1 – Intermediate.

TECHNICAL SKILLS

Languages

- HTML5, CSS3, JavaScript (ES6+), TypeScript

Front-End Frameworks & Libraries

- React.js, Next.js (App Router)

Styling & UI

- Tailwind CSS, Sass/SCSS, Bootstrap

- Responsive Design, Framer Motion

Tools & Workflow

- Git, GitHub, VS Code, Figma

- Component Architecture, Clean Code, Performance Optimization

Other

- RESTful APIs, JSON, React Hooks, Component-based architecture

PROJECTS

Bzeyada Restaurant Ordering Platform — Client Project (Saudi Arabia)

Next.js 14, React, TailwindCSS, MongoDB, REST API, Leaflet Maps

A production-ready online ordering system delivered for a real restaurant client in Saudi Arabia. Includes dynamic menu, customizable addons, advanced cart logic, OTP login, live order tracking, profile management, and map-based address selection.

- Built full UI using reusable, scalable Next.js components.
 - Developed cart system with unique IDs, addons, price rules & quantity logic.
 - Implemented OTP authentication flow and Twilio-ready verification backend.
 - Integrated Leaflet Maps for live location selection & delivery distance calculation.
 - Created REST APIs for orders, products, offers, and addons.
- Live Demo: bzeyada-restaurant-three.vercel.app

E-Commerce Landing Page | HTML5, CSS3, JavaScript

- Built a custom multi-section e-commerce landing and store page using pure HTML, CSS and JavaScript.
- Implemented a fully responsive layout and reusable UI blocks to simulate a real product page.

Prayer Times Web App ("Mawaqeeet") | React.js, JavaScript, REST API, HTML5, CSS3

- Developed a React-based web app that displays daily prayer times for all Egyptian governorates.
- Integrated a prayer-times API and implemented a live countdown to the next prayer.
- Designed a clean, responsive UI to make switching between cities easy on both desktop and mobile.

Admin Dashboard (Multi-Page) | React.js, React Router, CSS3

- Built a multi-page admin dashboard with more than 10 screens using React and React Router (SPA).
- Organized the interface into reusable components and layouts for clean and maintainable code.

Personal Portfolio Website | Next.js, React.js, Tailwind CSS, Framer Motion

- Created a personal portfolio to showcase projects, skills and contact information.
- Implemented a modern, responsive design with Tailwind CSS and smooth animations using Framer Motion.
- Deployed the site on Vercel: hakim-portfolio-iota.vercel.app

TRAINING & COURSES

Full-Stack Web Development Program (190 hours) | CLS Learning Solution – Online
Feb 2025 – May 2025

- Studied front-end: HTML5, CSS3, Bootstrap, Media Queries, SASS, JavaScript, TypeScript, Vue.js.
- Studied back-end basics: PHP (Core and Advanced), Laravel, SQL/MySQL and RESTful API concepts.
- Practiced building full-stack application structure from UI to database and API layer.
- Completed the program with an official certificate (PDF available upon request).

EXPERIENCE

Self-Taught Front-End Developer | Remote
2023 – Present

- Built multiple front-end applications including dashboards, landing pages, and e-commerce UI.
- Applied component reuse, responsive design, API integration, and clean code practices.
- Delivered full production project (Bzeyada Platform) independently for a real client in KSA.
- Continuously improving skills through courses, documentation, and real-world projects.

EDUCATION

Bachelor of Law (LL.B.) | Assiut University
Assiut, Egypt | 2021 – 2025

- Faculty of Law (Grade: Good)
